

Dr Radomir ZEJAK, PhD, Full professor, born on 11th January 1962 in Barice. He finished high school in Bijelo Polje in 1981 and then spent a year in the Army. He graduated from the Faculty of Civil Engineering of University 'Veljko Vlahović' in Titograd 1987. He obtained a master degree in 1993 at the Department of Concrete Structures at the Faculty of Civil Engineering in Belgrade. He obtained his PhD degree in 2003 at the Faculty of Civil Engineering in Belgrade in the field of concrete structures. Since 1988 until 2003 he worked as an assistant and since 2003 has worked as a professor at the Faculty of Civil Engineering and Architecture, University of Montenegro in Podgorica. He became Full professor in 2014. Since 2004 until 2010 he was vice Dean for Academic Affairs at the Faculty of Civil Engineering in Podgorica.

Besides working at the University of Montenegro in Podgorica, he held lectures, periodically from 1997 at the Department of Construction of High business - technical school in Užice, Serbia. He was a member of several scientific and organization committees of scientific conferences on Concrete technology and Construction materials and structures.

As part of his scientific research he worked on numerous research projects, has more than 120 scientific studies published in national and international magazines. Within the study visits or as a researcher on the projects he stayed in several foreign universities and institutes including: TU Wien, Institut für Stahlbetonbau; La Sapienza, Roma; University of Architecture, Civil Engineering and Geodesy, Sofia, Tsinghua University, Beijing.

He received the recognition of the Yugoslav Association of Structural engineers (JDGK) for the best scientific achievement in the field of structural engineering, in 2003, for his PhD thesis "Contribution to the analysis of slender reinforced concrete elements with oblique bending".

He is married, he has a wife Gordana and daughters Hristina and Simonida.
